

Wanna dive? But better be safe!

www.dive-card.eu

Advantages of the aqua med dive card at a glance:

Health insurance for international travel	unlimited
Repatriation and transportation costs	unlimited
Hyperbaric chamber therapy (worldwide)	unlimited
Other treatment costs after a diving accident within your home country	€ 15,000
disability (base amount € 25,000) max.	€ 56,250
Rescue service	€ 10,000
Death	€ 5,000
diving instructor liability (only dive card professional)	€ 3,500,000

Important references:

All card policies are valid for one year starting from when we receive the application, insofar as no later date is stated on the application. They are extended by one year each time if they are not terminated in writing at least two weeks prior to contract's end.

If payment by direct debit or credit card is not desired, payment is made by invoice/transfer. We charge 3.00 Euros per year for this additional expense. If the premium is not paid within 10 days or the direct debit/credit card transfer is not possible because of incorrect, incomplete or outdated data or inadequate coverage, the benefits claim expires. A processing fee of 10.00 Euros is also charged for this. The benefit claim starts once aqua med has received the payment in full.

By submitting your application, you agree for aqua med to save your data and forward it to the respective service provider in order to process your policy. No health-related data is passed on for this.

To process the policy, you must immediately inform aqua med of any changes to your address. If messages cannot be delivered to you because we have incorrect or outdated details from you, this could result in disadvantages to you.

The bases for this contract are the insurance conditions, as well as the statements on our latest flyer, which you can download online (www.aqua-med.de) or request from us at any time

This flyer is valid for divers residing in the EU or Switzerland. The policy language is German, and the currency is the Euro.

(Version 01/2009)

Even when taking great care, diving accidents cannot always be avoided. The doctors at aqua med dive card give you the security of being well looked-after the world over. It should be noted in addition that in almost all European countries diving medical care is not or just inadequately ensured.

The dive card offers you a comprehensive insurance package:

From accident response to insurance coverage in professional hands: the new aqua med dive card!

- Medical accident management
- Diving accident insurance
- Travel health insurance

Professional accident response

What differentiates us decisively from a pure insurance plan is our professional accident response. With us on your side, you have a dedicated emergency response team, and doctors who are specialised in coping with accidents on an international scale. Because we deal with such accidents on a daily basis, we maintain continual contact with hyperbaric chamber facilities and medical centres world-wide, and we are constantly extending the range of our medical cooperation. All this is to your advantage.

As the emergency response is our own and not commissioned by any insurance company, our doctors are independent and can provide help on the basis of purely medical considerations and without call-backs approval. For example they can approve hyperbaric chamber and hospital expenses.

Comprehensive care

What happens to your hotel room, who organises your return trip, and who will keep your relatives informed? aqua med also offers help with these issues and keeps stress to a minimum.

Immediate medical care

Every minute counts in the case of a diving accident or severe illness. Our emergency and specialist diving doctors can be reached round the clock via our international hotline: we can provide immediate medical advice over the phone.

If some questions are unresolved, we guide all crucial steps of treatment in cooperation with the doctor on the scene and in consultation with you. Our experience can assure you the best medical attention. We organise and coordinate all measures, from transport and medical treatment to hyperbaric chamber therapy.

The dive card basic (45 Euro per year)

- Emergency medical call and assistance (emergency response) in case of a diving accident and foreign travel.
- Covers costs of hyperbaric chamber treatment after a diving accident anywhere in the world. This also applies to your home country, of course.
- Comprehensive foreign travel health insurance non-deductible applies also to other (not diving-related) illnesses. Coverage lasts for a period of 56 days on each trip (longer cover available on request)
- Covers costs of medically sensible measures (not just those medically essential).
- Emergency return transport in case of illness
- Diving accident insurance for disability or death
- Digital recording of medical data (e.g. blood group, allergies). These details are immediately available to our doctors.

dive card professional (139 Euro per year)

Important for diving instructors and other professional divers.

Provides the same coverage as the dive card basic and in addition, a diving instructor liability insurance (recognised by PADI-Europe) with legal insurance for the defense of unauthorized claims.

The dive card is a waterproof and signal-red emergency card that can be easily attached to your equipment (punched hole provided).

... the emergency card is not much use sitting in your wallet!

Available for your partner and family members:

dive card family (98 Euro per year)

Provides the services of dive card basic to every family member who dives. (Worth purchasing instead of a third or more separate card).

It is valid for 2 adults and also 2 children under 21. Additional children can get a card for just 10.00 Euro per year.

travel card (25 Euro per year)

This additional card available for non-diving partner and/or family members offers, it offers all the benefits of our emergency call services and travel health insurance, including emergency return transport. Does not contain diving accident coverage.
